

Our Mission

Supplying the right solutions at the right time with our expert customer care throughout Western Canada.

Our Vision

Be the preferred wholesaler by providing superior customer experiences.

Our Values

DEPENDABLE

Even in the most pressing moments, we are aiming to be there with timely service and in-stock product.

PROACTIVE

Pursuing the latest industry products, trends, and technologies to optimize our service offerings.

KNOWLEDGEABLE

Our employees possess the knowledge to ensure our customers are receiving the right information to make the right decisions.

PROUDLY CANADIAN

We pride ourselves on being 100% independently Canadian owned and operated, to better serve our local communities.

COLLABORATIVE

Working together with our employees, suppliers, and customers, to ensure the best service is being provided.

CARING

Looking after our employees and customers the way we would want to be looked after.

Our Services

At Bartle & Gibson, we offer an array of services to serve you better.

HYDRONIC HEATING DESIGN

Also referred to as radiant heating, this energy efficient heating runs hot fluid tubing beneath the flooring to effectively warm your space.

COMMERCIAL LIGHTING DESIGN

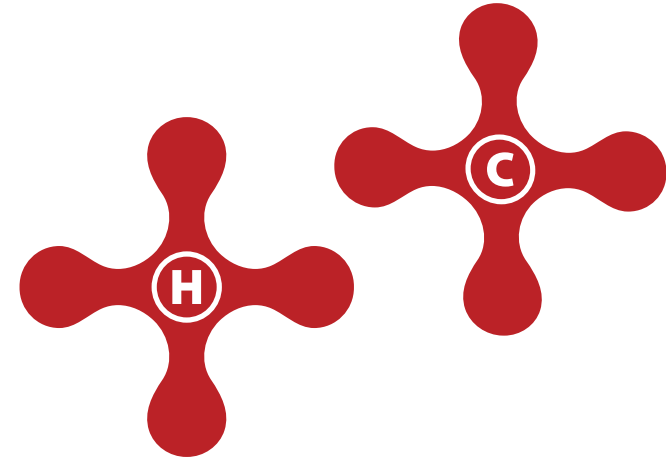

Lighting plays a crucial role in cultivating the mood and atmosphere of spaces, which can affect individuals' behaviours.

WATER PUMPS AND SOFTENERS

Water softening is the removal of calcium, magnesium, and other metal cations in hard water to enhance water quality.

HEATING

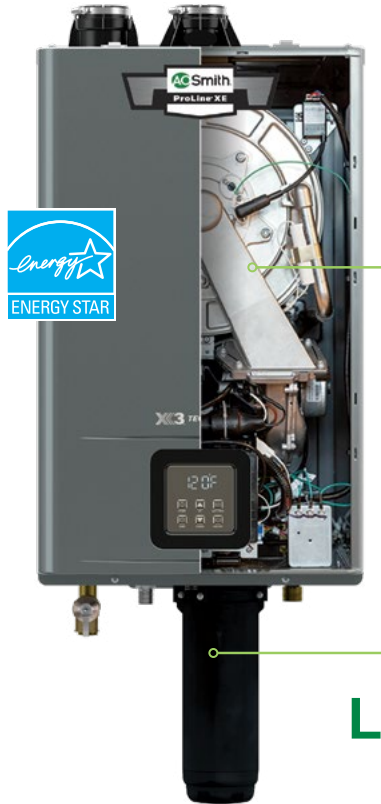

HISTORICAL FACT

In 1944, Charlie Bartle of Victoria, BC, and Cecil Gibson of Vancouver, BC, each started a store in their respective city, and Bartle & Gibson opened its doors for the first time.

THE ONE THAT DOES IT ALL.

Nearly seven decades after inventing the first diaphragm expansion tank, Amtrol's Extrol lineup now includes the Extrol Pro. This next generation expansion tank is engineered for modern, high-efficiency applications including hydronic, solar and radiant systems. The Extrol Pro features a corrosion proof polypropylene liner, high grade stainless steel connector and an industry leading 15 psi pre-charge. The Extrol was The One That Started It All™ and now the Extrol Pro is The One That Does It All™.

Quality is key.

- › You buy the best tools because you learn broken tools cost time and money. *Then you learn bad products do the same.*
- › Customer call backs cost more than time and money. *They hurt your reputation with your customers and your ability to grow new business.*
- › We invented electric tankless water heaters and are the largest manufacturer in the World. *These are the ones that work.*

Electric tankless single-phase point-of-use from 1.8 kW for hand washing, to whole house up to 36 kW; plus three-phase up to 144 kW.

Engineering & manufacturing excellence... since 1924.

Freestanding Bathtub

Discover our matte acrylic, the **perfect solution** for affordable luxury.

Icon SERIES

The seamless one-piece design features AcrylX™ applied acrylic surface for a lustrous, easy-to-maintain finish. It offers ample wall-to-wall shelf capacity, a large deck space for bath essentials, and flat walls to accommodate optional grab bars. Plus, its minimalist design with a lower deck height makes access easier, and it's compatible with various shower doors.

MOEN

SMART WATER NETWORK

MONITORING AND PROTECTING YOUR HOME FROM WATER DAMAGE

Flo® Smart Water Monitor and Shutoff

The Flo® Smart Water Monitor and Shutoff is a game-changing leak detection and water monitoring device that detects leaks anywhere in the home. This device can automatically turn off the water to the home if a leak or risk is detected, with the ability to start and stop water flow from your smartphone. It also provides real-time information on water usage in your home.

For more information on Smart Water Network products, visit moen.ca/smart-home.

Protecting Essential Electrical Infrastructure

Rigid PVC Conduit Pipe and Fittings for Exposed, Encased and Underground Applications

Westlake Pipe & Fittings manufactures a complete line of Rigid PVC Conduit pipe and fittings for electrical applications. Our products are designed to help reduce labor and maintenance costs, while offering sound, reliable performance. Westlake Pipe & Fittings' Rigid PVC

Conduit can be used for direct burial, requiring no additional protection for installations according to the Canadian Electrical Code (CEC).

Performance You Can Count On

Our products are certified by the Canadian Standards Association (CSA) and Underwriters Laboratories (UL) for use in above and below ground applications and conduit meets NEMA TC-2. Schedule 40 Rigid PVC conduit pipe is available in 1/2- to 6-inch-diameter and 10- or 20-foot-lengths. Westlake Pipe & Fittings products are impact resistant – made from tough, durable, high tensile strength PVC that resists cracking and is long lasting.
